Skilled Professionals

At Las Vegas Legal Video, our philosophy is fairly simple: to serve the legal community with the utmost professionalism while providing quality video and presentation services that inject strength into strategy. We commit to our clients any time, day or night, without the impediment of nights, weekends or holidays. We recognize and appreciate that, in today's touch-screen tethered techtopia, the integration of visuals as a tool of persuasion in litigation is no longer optional, it's essential.

The professionals at LVLV have the necessary knowledge and experience to present your case in a visually compelling and efficient manner. From personal injury to construction defect, jury trial or bench, LVLV remains prepared to assist our clients on the proverbial battlefield of justice.

TRIAL

Visual Persuasion

Well adept in the art of media, the professionals at LVLV effectively assist attorneys and their clients in conveying their courtroom narratives. Whether a case is in the discovery, settlement or trial phase, the strategic implementation of graphics remains as one of the most powerful tools available to modern day advocates of justice. LVLV strives to create the most practical visual analogue to your evidence for maximum impact on your trier of facts. When the time comes to bring your case to trial, we are prepared to execute a seamless presentation of all evidence so as to allow you to focus on trying your case.

Qualified Videography

The only effective way to capture the expression, behavior and subtle nuances of a deponent is by video. Fidgeting hands, darting eyes and nervous gestures are not recorded in the transcript. Although a witness is sworn to tell the truth, body language may tell a completely different story. We are here to capture that story. In addition to video depositions, we have assisted many clients with settlement videos, day-in-the-life videos, inspections, enhancements and much more. Video has become a fundamental aspect of technology today and will remain a powerful tool in litigation for years to come.

About the Company

Las Vegas Legal Video has been serving the greater Las Vegas Valley for over 10 years and is recognized as a premier provider of legal technology and litigation support solutions.

Our professionals work every step of the way to ensure that the client receives a superior product. We maintain a passion for perfection with an appetite for justice and strive to assist our clients in achieving both. LVLV understands that the legal industry is one of high-stakes with no room for error and, as such, is adamant about meeting the established standards of ethics and professionalism that the industry requires.
